Arshad Ayub Ahmed

Data scientist | Hyderabad / Secunderabad, Telangana

Summary

Data Scientist skilled in driving business growth through data-driven strategies and analytics. Proficient in Python, SQL, NoSQL, and statistical tools like hypothesis testing and time series analysis. Expert in data manipulation (Pandas, Numpy), visualization (Matplotlib, Seaborn, Tableau), and machine learning (Scikit-Learn). Skilled in e-commerce data aggregation, customer segmentation using K-Means, and real-time data visualization with Streamlit and Plotly. Adept at extracting and transforming data for business insights, optimizing marketing efforts, and leveraging deep learning and NLP for advanced analytics. Experienced in SEO and business analysis.
