- ✓ Laravel (8, 9 & 10)
- ✓ PHP (8.0 & above)
- ✓ API Testing using Postman
- ✓ ReactJs
- ✓ MySQL & SQL Server
- ✓ Bootstrap
- ✓ JavaScript
- ✓ JQuery

PROFESSIONAL EXPERIENCE

- **Extraaaz Innovative Technologies Pvt. Ltd** - **Badalapur**
-Laravel Developer **Present**
- **Atzos ventures Pvt. Ltd** - **KamotheNaviMumbai**
-Laravel Developer **(Jan 2023 - Sep 2023)**
- **Calibre Technologies Pvt. Ltd** - **Seawoods, Nerul**
-PHP Developer **(Dec 2021 - Dec 2022)**
- **Softcare Technocraft Pvt. Ltd** - **Panvel**
-PHP Developer **(Dec 2020 - Dec 2021)**

EDUCATION

MTech - Computer Engineering - **Bhopal**
Patel College of Engineering and Technology, Indore **2015**

- Graduated in 'First Class' with **7.33 First Class**

B.E - Computer Engineering - **Mumbai**
MGM College of Engineering & Technology, Kamothe, Navi Mumbai **2010**

- Graduated in 'First Class' with **64.13% First Class.**

PROJECT DETAILS

ExtraazPOS Web Application

Technologies : Laravel 9, PHP, Laravel Blade, MySQL, Postman, Bootstrap, JQuery.

- Served as a core developer for the ExtraaazPOS web application, actively contributing to its development and maintenance.
- Led the collaborative effort with cross-functional teams to elicit and implement complex project requirements.
- Architected and optimized MySQL database structures, focusing on efficiency, scalability, and data integrity.
- Implemented RESTful APIs to enhance communication protocols between the front-end and back-end systems, ensuring seamless data flow.

ExtraazPOS QR Ordering

Technologies : Laravel 9, PHP, Laravel Blade, MySQL, Postman, Bootstrap, JQuery.

- Orchestrated the development of ExtraaazPos QR Ordering, a cutting-edge project designed to streamline ordering processes.
- Leveraged Laravel Blade within the Laravel framework to construct a robust backend, ensuring efficient and secure operations.
- Engineered a seamless QR Ordering system that enhances the overall user experience and accelerates the order placement process.
- Collaborated closely with cross-functional teams to translate project requirements into scalable and performant technical solutions.
- Implemented innovative features and functionalities, contributing to the continuous improvement of the QR Ordering platform.

SpynPRO Web Application

Technologies : Laravel 8, PHP, MySQL, Postman, Frontend (Angular), Cron Jobs, Webhooks.

AcademyPro:

- Implemented automated payment reminders with payment links, allowing clients to pay from anywhere.
- Enabled clients to set up automatic payments for recurring charges.
- Routine Task Automation:
 - Payment reminders with online payment links.
 - Generating and sending invoices and payment receipts.
 - Sending client absent notifications.
 - Sending greetings for new enquiries and birthday wishes.

BookingPro:

- Implemented time slot availability management to streamline booking processes.
- Enabled clients to view and book time slots directly through the app, eliminating the need for manual confirmation calls.
- Routine Task Automation:
 - Sending confirmation messages via WhatsApp, email, and app notifications.
 - Sending greetings for new enquiries.
 - Creating and managing promotional offers using coupon codes.

EventsPRO:

- Easily create events with tickets and share them with your audience.
- Receive payments online.
- Enter number of tickets available and automatically cut off ticket sales at deadline.
- Send tickets via WhatsApp, email, or app notification.

Gram panchayat Project:

Technologies : Laravel 7, PHP, MySQL, JQuery, Javascript.

- In the Gram Panchayat Project, there are three panels: Superadmin, Admin, and Users.
- Users can:
 - View home tax and related due amounts.
 - Make payments.
 - Directly post photos related to difficulties in their area to the admin (accessible for Gram Panchayat office).
- Admin:
 - Takes action on queries posted by users.
 - Manages the system and database.
 - Views all tax bills for related Gram Panchayat people.
 - Downloads all related reports.
- This project is based on multitenancy:
 - Superadmin adds the Gram Panchayat name and village.
 - Creates a separate database for each Gram Panchayat village.

Lead Management System::

Technologies : Laravel 7, PHP, MySQL, JQuery, Javascript.

- This project is Inhouse project for verticals for education institute.
