PROFESSIONAL SUMMARY

- As a recent 2021 Computer Science postgraduate, I possess a strong foundation in full-stack web development, coupled with a broad knowledge of various JavaScript languages, frameworks, and libraries.
- Energetic self-starter, problem solver, and team player with outstanding technical and communication skills. A fast learner with the ability to grasp new threats, concepts, and technologies.

TECHNICAL SKILL

Basic Linux:

- Proficient in basic Linux commands, file system navigation, and software installation. Enthusiastic about learning and expanding Linux skills in an entry-level role

Java:

- Proficient in Java programming language for application development.

HTML, CSS, JavaScript:

- Strong command of front-end web technologies including HTML, CSS, and JavaScript for creating interactive and responsive web applications.

MERN Stack (MongoDB, Express, React, Node.js):

Experienced in building full-stack web applications using the MERN stack, including:

- MongoDB for database management.
- Express.js for server-side development.
- React for building user interfaces.
- Node.js for server-side scripting and backend development.

CURRENTLY LEARNING

Linux:

- Through online tutorials, documentation, and hands-on practice, I've acquired fundamental Linux skills. My proactive approach and dedication to learning make me adaptable and ready to take on Linux-related tasks in an entry-level role.

TypeScript:

- Actively enhancing my skills in TypeScript, a statically typed superset of JavaScript, to write more robust and maintainable code.

Next.js:

- In the process of acquiring proficiency in Next.js, a popular React framework for building server-rendered web applications, by exploring its features and building projects.
